Hi wynn,

I was with the 1st. Calvary airmobile D2/12 Division. What that means is we assault by helicopter and it would be weeks later before we would returned to base camp. The photo of solders jumping out of the helicopter was typical how we assaulted.

Two of the photos show's me with my platoon and the other was what I looked like when I returned after 3 weeks. During that time we were involved in two fire fights.

A war photographer took this picture of me dirty and filthy and asked were the hell have you been?. If you notice in my left pocket I was armed with a bible and a cross that truly sustained me. I would appreciate if you can add these with the mini video we put together.

Thank you and God bless,

George
